

PRO-FIND ⁺Series

Precision Pinpointing

LOCATE TARGETS WITH SPEED AND ACCURACY IN TOUGH CONDITIONS.

- Ferrous Tone ID
- Waterproof to 3 m (10-ft)
- Audio & vibration indication
- Adjustable sensitivity
- High visibility
- Holster & lanyard

Two great models available:
PRO-FIND 15* & PRO-FIND 35

VLF 

World's Best Metal Detection Technologies

MINELAB

“A PRO-FIND Series pinpointer is a must-have for any serious detectorist. DIF technology makes PRO-FIND a clear winner in the field!”

– Gordon Heritage, UK 

A PRO-FIND Series Pinpointer is an essential part of your detecting tool kit.

PRO-FIND Series pinpointers help you to accurately locate targets inside a small hole or crevice where a metal detector coil cannot fit. This results in smaller holes, less environmental disruption and faster target recovery time.

Ferrous Tone ID

Two different responses help you to identify ferrous junk from non-ferrous treasure. Great to use with non-discriminating detectors.

Waterproof to 3 m / 10-ft

Rugged waterproof design ideal for beach and river pinpointing. The perfect companion for a waterproof detector.

Audio & vibration indication

Audio tones and vibration intensify as the probe approaches the target making target recovery easier, especially underwater!

Adjustable sensitivity

Five sensitivity levels allow you to precisely adjust for maximum depth and minimum noise in all ground conditions. Easily adjustable with separate +/- buttons.

High visibility - with lost-alarm

The PRO-FIND's bright yellow handgrip is clearly visible for easy location, so you won't leave it behind after you dig. Quickly locate your forgotten pinpointer with the handy lost-alarm.

Holster & lanyard included

A lanyard and a tough, semi-rigid holster that attaches to any belt will keep your PRO-FIND at the ready.

Getting Started Guide Languages

| Specification | PRO-FIND 15 | PRO-FIND 35 |
|-----------------------|-----------------------|---------------------------|
| Target Identification | No | Ferrous Tone ID† |
| Sensitivity | Fixed | Adjustable (5 Levels) |
| Waterproof | Splash proof only | Waterproof to 3 m (10-ft) |
| Audio Indication | On only | On, Off |
| Vibration Indication | No | Yes |
| LED Flashlight | No | Yes |
| Battery | 9V PP3 (not included) | 9V PP3 (included) |
| Battery life | 30 hours nominal | 30 hours nominal |
| Length | 237 mm (9.3") | 237 mm (9.3") |
| Weight | 193 g (6.82 oz) | 193 g (6.82 oz) |
| Accessories | Holster | Holster, Lanyard |

† Ferrous Tone ID is effective when the probe is 10–15 mm (approx. ½") from a ferrous object.

DIF Technology

Minelab's Detector Interference Free (DIF) technology significantly reduces interference with an operating metal detector, when the pinpointer is switched off, by disengaging the pinpointer coil's magnetic field.
