

SDC 2300

All Terrain Gold Detecting

Compact Waterproof Gold Detector

Find elusive sub-gram nuggets on land & underwater!

"I managed to find small nuggets ranging in size from 0.04 to 0.09 grams. A 0.07gram piece was under a 3 inch tree branch and gave off a very positive signal considering it was buried into the clay by 4 or more inches. 7 inches for such a tiny piece is impressive."

Jonathan Porter - Professional Prospector

- Compact & rugged
- Waterproof to 10ft (3m)
- Easy to use
- Audio & visual target response
- High performance MPF technology

SDC 2300

All Terrain Gold Detecting

The SDC 2300 is a high performance mid-range gold detector, perfect for chasing down those elusive sub-gram nuggets on land and underwater. This compact waterproof detector comes with easy-to-use controls and is assembly-free.

Quickly find more gold patches and more gold nuggets!

Benefits:

Compact

Folds to small portable size, 8.5" (216mm) by 15.7" (400mm). Fits into carry-on luggage and most backpacks.

Waterproof Capability

Fully submersible to 10' (3m) for detecting riverbeds and shorelines, allowing you to transition with ease from land to water.

Rugged & Assembly Free

Military grade construction, one piece detector designed to perform in the toughest conditions.

Easy Patch Hunting

Search quickly and efficiently in hard to reach and remote places to find those elusive gold bearing clustered deposits.

MPF Technology:

MPF (Multi Period Fast) technology incorporates extremely fast Pulse Induction switching between Transmit (Tx) and Receive (Rx) detector signals. Therefore minimal residual transmit signal is present during the receive cycle, enabling clear sharp detection of very small gold.

Specification:

Coil	8" Round Monoloop
Audio Output	Built-in speaker Koss 100 Ohm headphones (supplied) Koss waterproof headphones (not supplied)
Display	9 LEDs indicate detection, battery status and Threshold level (1 Low battery warning LED)
Length	Extended: 1500mm (59.1") Collapsed: 400mm (15.7")
Weight (excl. battery & headphones)	2.3kg (5.1lbs)
Batteries (4 x C cell)	1.2V 5000mAh Rechargeable (supplied with charger) 1.5V Alkaline (not supplied)
Detecting Modes	Normal (1-5 Sensitivity range) Salt (1-3 Sensitivity range)
Noise Cancel	Automatic scanning
Ground Balance	Automatic Ground Tracking (AGT) Fast Ground Balance
Threshold	9 audio levels
Audio Pitch (Tone)	Low, High
Transmission & Technology	Pulse Induction, Multi Period Fast (MPF)
Optional Accessories	Waterproof Headphones, Carry Bag
