Prospecting • Community • Environment

At Minelab, we believe that supporting local Prospecting, Community and Environment objectives will achieve our long term vision of a successful and sustainable future for communities across Africa and around the world.

Prospecting

We make the move to technology easy for small-scale gold miners.

Community

We provide training and community support for your benefit.

Buy Genuine Minelab

Fake Minelab detectors are illegal and find less gold!

GPX Series detectors can be checked using the Minelab verification system

Environment

MINELAB

We actively promote a code of ethics for responsible metal detecting.

Verify your Minelab detector:

- Buy from an authorised dealer
- · Check the security label on your detector
- · See the picture, using a special viewer
- Use the SMS message: + 61 458 727 727 | + 44 790 351 3551
- Use the verify.minelab.com website
- Genuine GPX detectors are made in Malaysia
